

CLASS 10 : SOLUTIONS FOR SHEEPVENTION COMPETITION "WHAT I WANT INVENTED"

Winning Idea Sheepvention 2008

A counter mechanism to fit onto the drafting gate to count the individual mobs of sheep as drafted.

Other Ideas

A roller brush for painting weatherboards

Pollution extractor for the top of chimneys/flues to reduce the CO₂ emissions of wood fires

Electric or 12 volt for tying droppers

Water fire extinguisher (house gas cylinder size) for the back of the ute for cleaning machinery as well as fire protection

Automatic floor brush for easy washing of floors

A method of marking sheep in the paddock so that they can be identified when mustered (without having to run them down and disturbing the mob)

A steam powered car running a methane collector that uses garbage as a fuel

A car that runs on water

Lots of ideas to improve fuel efficiency in utes and tractors

Fluorescent coloured working dog vest for safety near roads and machinery

Device to make it easier to drag subdued rams from pens for shearing

Automatic sweeper when dagging sheep

Unbreakable swivel dog clip

Automatic solar powered gate opener with lock to prevent sheep theft from outlying paddocks with alarm based at home

Slide out trays under woolshed to collect sheep manure

Solar powered lawn mower

Portable ewe shelter and lamb warmer for lambing difficulties

A better way of sharpening chainsaws

Petrol bowser that operates with money out of hours

Device that paints or marks a sheeps nose when drenching so none are missed

Wheel brake for supermarket trolleys

A solar powered hologram which projects an image of a gate to prevent stock passing through but allows vehicles to drive through

Pruning tool that can do small and large branches with ease at all heights

Bale fastener dispenser direct into wool bales

Implement to lift sheep onto the back of a 4-wheel motorbike

Grain level gauge for existing silos

Rechargeable battery operated grease gun

Something to push sheep up a race automatically

Self-cleaning water bowl for dogs (green slime)

A holder for vaccinator gun along a race or crush

Something to use bailing twine (recycle)

A comfortable, light head protector for motorbikes giving good visibility and not affected by wind

Multi purpose charger to suit a range of products e.g. mobile phones, cameras portable radios rechargeable torch batteries for power tools and kids toys

A tool for removing smoke detector batteries with an extension handle

Spring driver automated tattooing pliers for sheep

Scanner that prints and speaks out the tag numbers clearly

Cordless hand piece with rechargeable batteries similar to a cordless drill

Remote monitoring of water troughs and tanks

Under vine sweeper

Device to straighten steel posts

A spray- on fox repellent (pastures)
